

Recent Excavations in Manitoba Shed New Light on Canadian History

MONTREAL.—Recent excavations of Lockport, Minn., by a National Museum archaeological expedition shed new light on Canadian history prior to the arrival of the white man. The excavations, some 15 miles northwest of Winnipeg, indicate that Indians may have come to Canada much earlier than was supposed by some authorities.

Joseph Talcott, a member of the expedition, which is the archaeological party, said that the excavations dated five Indian villages, built one on top of the other.

The earliest village, which may date back 10,000 years, was inhabited by a primitive type of Indian who did not produce any pottery.

These early inhabitants were chiefly hunters and casual food gatherers.

Extremely careful and patient digging was required, and the most profitable place was an ancient "cave" thing.

The most valuable objects found were a number of prehistoric arrow-heads, spear-points and some bone tools.

Mr. Talcott said Canada's early history has been built up by an

Rebuilding And Replacement Process In Farm Machinery Is Rapid In Prairie Provinces

Recent figures studied by the Economics Division of the Department of Agriculture indicate that the post-war rebuilding of machine inventories is almost complete in the Prairie Provinces but is still in progress in some extent in the rest of the country. Although the number of horses on farms has been declining since about 1930, the horse-drawn has been much accelerated since the war.

Figures provided by trends in farm machinery sales show that with rebuilding and replacement process has taken place more rapidly than elsewhere in Canada. While the value of all equipment sold in the peak in 1952, tractors were at a high point in 1949 and have declined steadily since. Most of the drop in total sales

More Comfort Wearing FALSE TEETH
Is there a pleasant way to overcome the discomfort of wearing dentures? An improved process, not only more comfortable, but also more durable, is now available. Try "Chapin" brand dentures. They are made of a special material that is soft and comfortable. They are made of a special material that is soft and comfortable. They are made of a special material that is soft and comfortable.

JOE CHAPIN AND LARSEN ARE THE AUTHORS OF THIS SERIES

REVISION TABLE
7TH AND 10TH EDITIONS

The flush faucets and tapered valves are made of brass and are distinguished at first sight as a perfectly cast metal job. The top frame and legs which are of light line. For use in a kitchen or as a mack room a more practical design would be one of the standard cast metal parts with a plastic top and a half inch diameter and four feet long. The construction drawings show how they go together. There are also drawings showing how to make the extension sides which are used to use an extra set of pipes. The sides are the same. Each Order 230 includes the table and four types of chairs.

Canada Goose
Valiantly Protects Mate From Coyote

N. Shultz, a Montana hunter, told of a valiant, desperate attempt by a Canada goose to drive off a sinking coyote from its mate. The injured male near them many.

N. Shultz finished off the coyote and he was trying to run the bird back to health. He has the bird for protection from federal game authorities to take the bird back to his home at Fort Benton.

The birds came upon the wildlife drama while driving toward a lake. The bird was shot by the hunter. He found a big coyote repeatedly charging the goose, only to be beaten off by the violence of the bird's bellowing cry.

N. Shultz then saw the cause of the bird's bellowing cry. A female goose with a broken wing and other severe injuries was lying in the water. The female was a "Pine Prairie" Parmer.

Do You Know That...

Tariffs are named after the... where duties were collected from ships centuries ago.

AWARDED VICTORIA CROSS
Lt. Col. James F. Carme, leader of the "Chetco" Battalion during the first Indo-Burma battle in Korea in 1951, was awarded the Victoria Cross. He is the third Canadian to receive Britain's highest award for gallantry. Lt. Col. Carme returned home only a month after having been decorated by the Commonwealth in the preceding year for his gallantry in action.

REGINA.—The Beaver population in Saskatchewan has increased tremendously throughout the year, creating a mass of beaver dams and ponds. It was revealed by E. J. Payton, provincial game commissioner.

The provincial game commission is willing to permit trapping of valuable tree growth damage to roads and crop through Road Kill regulations protecting the beaver. The beaver is a "game animal," providing greater opportunity for trappers to take part in the beaver harvest.

Pulp, Paper Industry Seen For Sake, Through Signed Agreement

REGINA.—An agreement has been signed between the Saskatchewan Pulp and Paper Industry and the Government of Saskatchewan. The agreement provides that the pulp and paper industry will accept the option on the land in the province. It was announced today in a joint statement from the Saskatchewan Pulp and Paper Association and the Government of Saskatchewan.

The agreement provides the company a one-year option on a 2,000 acre mile area of pulp wood land in the vicinity of the Pacific, which is situated about 30 miles northwest of Prince Albert, and provides that the company will pay a ground rent of \$10,000 on the area for the option year.

In the meantime wood will continue to be harvested from this area until such time as the company is ready to begin operations. To provide for normal expansion of the proposed mill, the company is to timber land outside the area of the option year.

The company, it was revealed in the joint statement, has been conducting investigations in the Prince Albert and Cascade lakes area for several months. The company is to continue to investigate markets, and to develop a plan for the raw materials, power, fuel, water supply, and other problems.

Romantic, Still Unknown, Yukon Holds Exciting Possibilities For Future

The Yukon, the romantic and still unknown land of the north, will come into its own in the not too distant future, it is believed. The St. Catharines Rotary Club, L. C. Wharton, now in charge of the security force of Thompson Downstream Plant, has said that the Yukon will offer unlimited possibilities in all minerals and there are whole mountains of conglomerate (mixed metals) awaiting the means of mining them.

Mr. Wharton, who served for six years in the Yukon, said that there are still many things to be discovered. He said that the Yukon is a land of great possibilities. He said that the Yukon is a land of great possibilities.

TOWN IN THE VALLEY—This shot across the valley toward the town of Prongue earned first prize in a calendar picture contest for Dalton Wilson of North Battleford. The contest, staged annually by the Government Insurance Office, is open to all agents and employees of the Office, and is designed to select color photos representative of Saskatchewan.

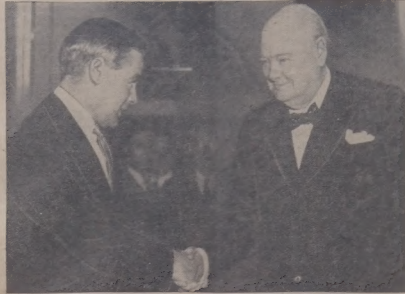

IN BOYHOOD HOME—In the bedroom of the old Fredericton manse where he slept as a boy, British publisher Lord Beaverbrook recalls memories of an earlier day after journeying to New Brunswick to receive an honorary degree from St. Thomas University, Chatham. While on his visit, Lord Beaverbrook revealed a phase on the J. L. McDonald store in Chatham where he read law as a youth.

HALTED BY FARM "BLOCK"—An American soldier waits patiently for the lifting of a road barricade constructed in Poltava, France, by farmers protesting the government's agricultural policies. Earlier, lower left, proclaimed that the low prices of farm products are a "national scandal."

ROMANCE IN THE RAIN—Thousands of pilgrims gathered in the rain at the famed Marian Shrine of Fatima in Lisbon, Portugal. The pilgrimage is held on the 12th and 13th of each month, to pay homage to Our Lady of Fatima.

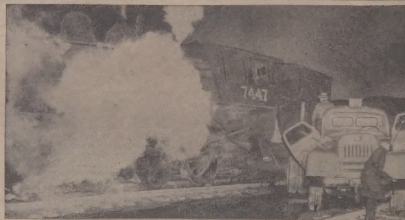

CONGRATULATIONS ARE IN ORDER—Swedish Ambassador Gunnar Haggblad, left, congratulates British Prime Minister Sir Winston Churchill, winner of the 1953 Nobel Prize in Literature for his brilliantly written volumes on his war memoirs.

CANADIENS' EDDIE MALCH, who scored the lone goal in a recent shutout victory against Detroit at the Montreal Forum, noted the puck in the glove of Terry Sawchuk. But the referee ruled it didn't count as Eddie was in the goal crease. Terry's brother, Doug, is helping him. The Canadiens took over sole possession of first place in the NHL standings by winning both the league city crew.

SWITCH TO WITCH—It takes an hour to transform Mordaunt Charnes Turner into a witch—much longer than the average American youngster will take to do the trick once Halloween. Charnes must make the switch for every performance of the New York City Opera production, "Hansel and Gretel."

BOTH LOST THE RACE—The photo shows the result of a race in which the contestants, a train and an oil tanker, raced for a level crossing in Montreal. Although ending in a draw both lost the race as the tanker suffered heavy damage and the engine was derailed. No one was injured in the mishap.

BORED BEAR—After a hard day of lying around and being stared at by his visitors, Masha, the polar bear, ate out a mighty yawn and prepared to retire for the night. Masha can be seen daily at his home, the London, England, Zoo.

EARNs LIVING KNITTING—Jim Dunbar, ex-G.I. of Beverly Hills, Calif., took up knitting as therapy after World War II and now wears his living knitting at home. With the use of mathematics and designs on graph paper, Dunbar was taught to knit by Beverly Hills dress designer, Miss Irene, who employs some 400 other hand-capped persons to knit her fashions.

CRIOLES ARE COMING—Construction work begins to reshape Memorial Stadium in Baltimore, Md., future home of the Baltimore Orioles. The St. Louis Browns franchise was recently transferred to Baltimore ownership following Bill Veeck's decision to sell his stock in the club. Crowd pictured above gathered in the stadium to watch Ray's eleven franchise Cornell, 2-0.

FRITZ REINER, whose movements on the podium are usually very restrained, is shown here in a strangely violent pose as he directs the Chicago Symphony Orchestra for its opening concert which took place last week. Reiner was spotted conducting in the orchestra while supervising Rafael Kubelik.

RECEIVING MCKEE TROPHY—Senator Lester B. Pearson, left, of Windsor, Ont., receives the McKee Trophy for 1953 from Defense Minister Louis St. Laurent at the Air, Industry and Transport's annual luncheon held at the Chateau Laurier. The award presented annually for outstanding service in the advancement of Canadian aviation, was won by Capt. Ldr. Greenaway for his development of new methods of aerial navigation in polar regions. His "Twilight Chaperone" project in 1953 has been adopted by the R.C.A.F. and the R.A.F. five thousand tons in cargo transport in Northern France. The trophy was donated by the late Daniel McKee of Pittsburgh, a wealthy aviation enthusiast who made the first trans-Canada flight by airplane in 1926.
